

We know that instant rebates aren't so “instant” once you consider the amount of effort that goes into the manual process of requesting one. It's like trying to shovel the walk while it's still snowing!

Dramatically increase customer loyalty by providing your retailers with an automated system enabling them to finally keep up with and cash in on the rebates and cash allowances they rely on!

In this business “it's all about the cash flow” and it's no secret most manufacturers have moved towards a rebate model as a means of price protection. Unfortunately, due to the overwhelming submittal process this shift has caused most independent retailers to fall behind and lose out - leaving a significant amount of revenue on the table.

We're not telling you anything you don't already know or haven't thought of yet. In fact, it doesn't surprise us to hear that you've searched endlessly for an integrated solution to automate this process only to come up empty handed that's because a solution has never really existed that is, until now.

WhitestoneTEC™ delivers a flexible and easy-to-use solution to help your retailers keep their cash flow in their pockets where it belongs!

What do you do?

Take another look!

As a leading provider of technology empowered e-commerce WhitestoneTEC™ knows that whether you're implementing a new process or enhancing an existing system somewhere in between “box” and “custom” is the perfect tailored solution for your business.

Furthermore, our tailored Software-as-a-Service (SaaS) solutions offer significant IT cost savings by eliminating capital and reducing operational expenses associated with the purchase and maintenance of expensive network hardware and on-premise software as well as the IT resources needed to monitor and update them.

With a WhitestoneTEC™ solution you'll never worry about expensive and manual updates that often present the risk of system failure because WhitestoneTEC's™ tailored SaaS solutions provide you with NO-COST system updates automatically!

WhitestoneTEC™
Technology Empowered Commerce

PRODUCT FEATURES

Easily define precise rules for all new programs as well as specific retailers who can participate

New program notifications are automatically sent to your specified list of retailers only

Automatic reconciliation between requests and corresponding orders eliminates duplicate or false transactions

Tie in rebates to specific SKU's to determine actual COGS

Easily submit requests for cash allowances, rebates, returns

Easy-to-use admin dashboard and user interface

Easily integrates with your existing systems

Automate!

Say hello to WhitestoneTEC's™ powerful Rebates and Returns Manager. Rebates and Returns Manager delivers new levels of automation and enhancements to your customer service process significantly increasing retailer loyalty.

WhitestoneTEC's™ powerful (yet easy to use) Rebates and Returns Manager provides you the ability to immediately deliver time-sensitive and precise information regarding price protection alerts, rebate programs and other special promotions to your retailers automatically while giving them the ability to respond quickly and easily with online requests that can be tracked throughout the entire process.

Your retailers can now effortlessly process rebate claims like never before as well as submit requests for price protections, return authorizations and damage allowances.

A powerful admin dashboard gives you the ability to enter program rules immediately with the ability of specifying effective date, end and request cut-off dates as well as specific qualifying and authorization rules.

Rebates and Returns Manager then automatically notifies your specified retailer list of new promotions and rebates programs on the "effective date".

Integrate without a hitch!

WhitestoneTEC's™ proven SaaS solutions are tailored to meet your specific needs and completely integrate with any existing systems you may already have. Robust and feature rich the Rebates and Returns Manager application adds new levels of automation in providing your retailers with critical value-added services.

Rebates and Returns Manager gives you visibility and allows for immediately delivery of time-sensitive promotion and rebate program information to your retailers

Harness the power of knowledge!

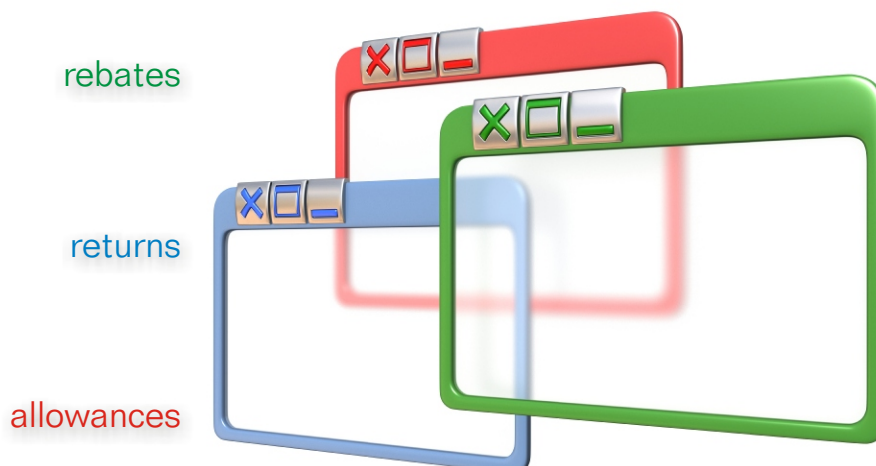

Implementing WhitestoneTEC's™ Rebates and Returns Manager provides you with unprecedented control, visibility and synchronization of essential information regarding all rebate, allowance and return requests and transactions.

Rebates and Returns Manager automatically reconciles between retailer requests and corresponding orders eliminating duplicate or false transactions. Rebates and Returns Manager also allows you to view all current and past programs as well as view roll-up reports for defining disbursement payments. Moreover, Rebates and Returns Manager has the ability to tie in rebates to specific SKU's which means your retailers can actually know their real COGS!

A little bit of SaaS goes a long way!

WhitestoneTEC™ raises the bar for SaaS solutions by eliminating the worry of integrating our solutions with your current systems. We deliver powerful tailored applications that enhance and further automate your commerce processes. Whether you're using on-premise applications, third-party solutions or cloud services WhitestoneTEC's™ SaaS solutions provide rapid deployment and proven results whatever your requirements are.

Our applications are tailored to meet your and your vendor's specific business rules and needs. Implementing a tailored WhitestoneTEC™ SaaS solution means you and your vendors never have to change the way you do business!
